Sir:

In response to the Official Action mailed January 16, 2002, Applicant submits the following amendments and remarks.

IN THE ABSTRACT

Please amend the abstract to read:

A method of assembling a bracket from a plurality of components adapted for mounting a device for a supporting surface. A plurality of components are provided which can be assembled into a plurality of brackets each of a different configuration. At least one of the components includes a shaft holder having an opening formed therein adapted to movably support the device. At least one of the brackets can be assembled from less than all of the components. The brackets are formed by assembling a plurality of the components including at least the shaft holder.

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as First Class mail in an envelope addressed to Commissioner for Patents, Washington, D.C. 20231 on March 4, 2002.
